

DP-2025129-269 Dear Sir or Madam, I have not been contacted by the police regarding this matter, the same happened in 2023 when I first reported this matter. This led to my wife and I being attacked on three separate occasions. Please see that attached screen shots, not only is that untrue notice still on the internet, I have recordings of a man phoning paedophile hunters and informing them about it. Then I noticed that the exact same photos have been used by Ammanford and Cross hands police in a wanted notice, that states that I am wanted in connection with a harassment offence. I have attached a screenshot of the notice. I request that the police look into this matter as it puts my wife and I in serious risk of danger. When I reported this matter in 2023 the officer who did nothing about it was PC Hart, I respectfully ask that this matter is passed to a different officer..
